DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Abstract

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

For this application, the abstract should be on a separate sheet and within the range of 50 to 150 words.

Claim Objections

Claims 7,12,15,17 are objected to because of the following informalities:

- 1) Claim 7, line 1, the claim should be depended on claim 5.
- 2) Claim 12, line 2, the phrase "the first measuring signal" should be change to "the measuring signal".
- 3) Claim 15, line 3, "the measuring light signal" should be changed to "the reference light signal".

4) Claim 17, line 2, "the first selected wavelength" should be changed to "a first selected wavelength".

5) Claim 17, line 2, "the second selected wavelength" should be changed to "a second selected wavelength".

Allowable Subject Matter

Claims 1,3-5,7-8,12-21 are allowed for reasons of arguments presented by the applicant in the amendment letter received on 12/09/2004.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
